Current research within the framework of Construction Grammar (CxG) has mainly adopted a theoretical or descriptive approach, neglecting the more applied perspective and especially the question of how language acquisition and pedagogy can benefit from a CxG-based approach. August 21 - 24, 2019. Université catholique de Louvain (Belgium) Aims of the workshop. Cognitive linguistic approaches such as cognitive grammar and construction grammar are best suited to elucidate grammar principles that often remain hidden to language learners, since they use imagery and embodied experiences to make grammar's meaningfulness more transparent to learners.
