Timothy James McVeigh (April 23, 1968 – June 11, 2001) was an American domestic terrorist who perpetrated the 1995 Oklahoma City bombing, which killed 168 people and injured over 680 others. The bombing was the deadliest act of terrorism within the United States prior to the September 11 attacks, and remains the deadliest act of domestic terrorism in United States history. Red is the color at the end of the visible spectrum of light, next to orange and opposite violet. It has a dominant wavelength of approximately 625–740 nanometres. It is a primary color in the RGB color model and the CMYK color model, and is the complementary color of cyan. Reds range from the brilliant yellow-tinged scarlet and vermillion to bluish-red crimson, and vary in shade from the pale ... Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. Are you convinced yet about the dangers of soy? Many aren't. "Is soy bad for you? ... Really?" I hear the question so often I want to scream. After decades of hearing marketing spin about how soy is a wonder food, a protein-rich legume able to rescue us from our dependence on meat, I suppose it's understandable why so many people have yet to understand fully the dangers of soy.
