

Download Duke Radiology Case Review Imaging Differential Diagnosis And Discussion

Duke Radiology Case Review has long been considered one of the standards in board review, and is a well-known adjunct to the popular and well-attended board review course given by the prestigious Department of Radiology at Duke University. Close to 300 case presentations are structured to align with the way residents are taught to work through ...Duke Radiology Case Review: Imaging, Differential Diagnosis, and Discussion is the second edition of a book first published in 1998. The book's three editors, James M. Provenzale, Rendon C. Nelson, and Emily N. Vinson, and its 76 other contributors are all either currently or formerly affiliated with Duke University. This comprehensive and thoroughly illustrated radiology board review was prepared by the prestigious Duke University Department of Radiology. The book follows a case study format that challenges the reader to reach a diagnosis by presenting images, findings, and differential diagnosis before ...Duke Radiology Case Review Imaging Differential Diagnosis and Discussion – 2nd edition Residents, fellows and practicing radiologists who are preparing for certification exams (the current ABR Part II oral, the future ABR Core and Certifying, CAQ and MOC) will find the new edition of this case-based review book an indispensable tool for success.
