DTA operations are carried exclusively in our state-of-the-art Dyno room where our tuning team is constantly testing and tuning cars. Our Dyno room is well equipped with the latest tools and software available in the worldwide market for petrol and diesel engines. Our equipment is always up to date and it's a result of years of tuning experience. This is my 27th (yes, 27th!) Range Rover. I've owned them since 1979. My current one however, will be my last. Bad dealership experience from the outset and the car has been back to the workshop ...
