

Download From Object To Experience The New Culture Of Architectural Design

Architectural design values make up an important part of what influences architects and designers when they make their design decisions. However, architects and designers are not always influenced by the same values and intentions. Value and intentions differ between different architectural movements. It also differs between different schools of architecture and schools of design as well as ... When I had the chance, I normally use what I call the "three iterations rule". In the first iteration (or startup), I devise the general layout of the application according to the model objects, the algorithms, and the expected (really expected, not maybe expected) future directions. I don't write design documents, but if I have to coordinate multiple people, a rough sketch of the procedure is ... Nail houses have become emblematic of the accelerated rate of development in China. They are buildings whose owners have resisted selling to developers and which remain standing in the middle of new construction all around, like stubborn nails which can't be beaten down with a hammer. Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.
