Three years ago, when “Candidate Trump” (to use Mueller Report terminology) had gained major traction but few people believed he could win, *Gender Shrapnel in the Academic Workplace* came out. All of the sharp, feisty observations I had made about gender injustice in the workplace were tempered in the book by abundant research, a sober ... “Gender shrapnel” is a series of small workplace explosions that occur when no one person or organization is purposefully discriminating against women based on sex, but when the gender norms of our homes and of our public interactions that consistently follow a patriarchal flow are replicated in the workplace, entrenched in the workplace, and then become the fabric of a pattern of sexual discrimination.
