

Download Honda Cb550 Nighthawk Engine Manual

Clymer Honda Motorcycle service and repair manuals are written with model specific coverage for your Honda Motorcycle. From basic service and repair to complete overhauls, our Honda manuals provide the information you need. The Honda CB650 was a 627 cc (38.3 cu in) standard motorcycle produced from 1979 to 1985. It featured a four-cylinder SOHC air-cooled wet sump engine, with two valves per cylinder. The CB650 was a development of the CB550, itself derived from the even earlier CB500. The CB650 was the last of Honda's successful series of air-cooled SOHC fours that began in 1969 with the Honda CB750. The Honda CB250N and CB400N Super Dream are motorcycles manufactured by the Honda Motor Company from 1978–1986. The successor to the short lived Dream model, it had a series of revisions including a six speed transmission and what Honda termed as European styling which resembled the CB750F and CB900F. It was a popular model for Honda with 70,000 bikes sold in the UK alone. [Honda OEM Parts & Complete Online Schematics Worldwide HERE](#). [Honda Motorcycle Parts & Accessories HERE](#).
