I have already written about disabling secure boot in Windows 8.1 when I was using a Dell laptop. A number of people mentioned in comments that for them the option to disable secure boot was greyed out in UEFI settings. They simply could not disable the secure boot for the reason that the option was available to them. I did not face this issue until I bought this new Acer R13 ultrabook. The Single Relevance Score is Divided Into Three. Facebook's relevance score has been a huge focus for advertisers for a long time; that single number could tell you a lot about your campaigns, including the estimated quality and predicted success, and it could directly impact your CPCs and overall ROI. Facebook just announced that they're replacing their single ad relevance score with ...
