Dear Twitpic Community - thank you for all the wonderful photos you have taken over the years. We have now placed Twitpic in an archived state. Renewable energy in the United Kingdom can be divided into production for electricity, heat, and transport.. From the mid-1990s renewable energy began to contribute to the electricity generated in the United Kingdom, building on a small hydroelectric generating capacity. This has been surpassed by wind power, for which the UK has large potential resources. Science fiction news with a science review plus forthcoming UK Science Fact and Science Fiction book releases for the Autumn 2012, also Eurocon / Worldcon fandom, SF author & book trade news.
