A physician business owner keeps abreast of SEO changes July 27, 2015 philippa kennealy Whether you're a non-clinical physician business owner or a physician with a medical practice, it's vital to keep up with our changing world...How to perform an SEO health check on your small business website ... June 12, 2012. If you're a small business owner, you've probably thought a bit about how customers find your website ...The part only they can do, which for most business owners, is only a very small part of their time. Examples of brain surgery are: the marketing of your business, the relationships with your key customers. Not data entry, or the bookkeeping. So the challenge for business owners is to identify what part of their role is brain surgery.
