4.11.6 Changes in Accounting Methods Manual Transmittal. February 15, 2017. Purpose (1) This transmits revised IRM 4.11.6, Examining Officer's Guide (EOG) – Changes in Accounting Methods. Background. The Examining Officer's Guide serves as a quick reference guide for procedures on examinations. Definition of Accounting Cycle The accounting cycle is often described as a process that includes the following steps: Identifying, collecting and analyzing documents and transactions Recording the transactions in journals Posting the journalized amounts to accounts in the general and subsidiary ...How, when and why do you prepare closing entries? Definition of Closing Entries. In a manual accounting system, closing entries involve a company's temporary accounts. The main purpose of the closing entries is to 1) move the balances from a company's revenues and expense accounts, and 2) record their net amount, net income, in the owner's capital account or the corporation's retained earnings ...
