They explore the role of service providers in developing successful models of community-based long-term care services--housing, home care services, comprehensive senior centers, and day care, among others--and discuss not only the successes of the particular programs but the obstacles and barriers that had to be overcome as well. A systematic review was conducted of non-medical home and community care services for frail older persons. MEDLINE, PsycINFO, CINAHL, AgeLine, Scopus and PubMed were searched from 1994 to May 2009. Two researchers independently reviewed search results.
