We're constantly creating and innovating more effective and affordable ways to learn. Explore our products and services, and discover how you can make learning possible for all students.

CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

Undergraduate Major in Computer Game Science. The Computer Game Science major gives students a strong foundation in introductory information and computer science, an extensive education in technologies and design practices associated with computer games, and an opportunity to focus in two areas of particular interest to the student.
