According to the termination of Rovi Guide Plus+ Data Service, Guide Plus+ Data is lost and the following problems occur. When pressing Guide button, TV Guide will be No Data and timer recording cannot be set from TV Guide. Also message is displayed and it is not improved even if you follow the message and operate. (See the picture1.) Ok, i've had this problem for a long time now. Never bothered to call Sony support, so now i hope some of you guys have the answer for me :) Please watch the video, it'll be explained in there ...Re: TV Guide missing I agree it is indeed very slow, but in Italy we don't have any options since the standard DVB-t EPG is almost empty and we live with it. For you too, till the problem is not solved with the freeview one, is in any case better than nothing...
